

Test Results for Hardware Write Block Tool:
GUIDANCE Software Tableau Forensic SATA/IDE Bridge Firmware Version T35u

Tool Description

Tool Name: Tableau Forensic SATA/IDE Bridge
Firmware Version: T35u
Tool Manufacturer: GUIDANCE Software

Testing Organization

This test report was generated using CFTT's Federated Testing Forensic Tool Testing Environment, see [Federated Testing Home Page](#).

How to Read This Report

This report is organized into the following sections:

1. Tested Tool Description. The tool name, version and vendor information are listed.
2. Testing Organization. Contact information and approvals.
3. How to Read This Report (this section).
4. Results Summary. This section identifies any significant anomalies observed in the test runs. This section provides a narrative of key findings identifying where the tool meets expectations and provides a summary of any ways the tool did not meet expectations. The section also provides any observations of interest about the tool or about testing the tool including any observed limitations or organization imposed restrictions on tool use.
5. Test Environment. Description of hardware and software used in tool testing in sufficient detail to satisfy the testing organization's policy and requirements.
6. Test Result Details by Case. Automatically generated test results that identify anomalies.
7. Appendix: Additional details. Additional details for each test case.

Results Summary

To begin with, I got an error when I opened the iso file in virtual box. That only happened while I was connecting the HWB. The error is kind of screen cracking so that I should execute virtual box again. When the iso file was opened well, the result of following guide line was unchanged. Even though I tried to modify several contents, I had a result, failed.

Test Environment

Hardware: Computer: Dell Desktop all-in-one, Hard disk: HITACHI SATA 3.0, Capacity 160GB, Hardware Write Blocker: Tableau Forensics SATA/IDE Bridge
Software: Virtual Box, NIST Federated Test iso file. Open iso file as the IDE drive of the virtual machine inside virtual box

Tableau Forensic SATA/IDE Bridge Firmware Version: T35u

Test Result Details by Case

This section presents test results grouped by case.

FT-HWB-ATA/IDE

/media/cftt/FT-LOGS/FT-HWB-ata is missing

FT-HWB-SATA

Test Case Description

Test a write blocker's ability to write-protect a SATA drive. This test can be repeated to test multiple types of connections (interfaces) between a computer and the write blocker. Test the ability of the write blocker to block write commands from the ATA and SCSI command sets issued from a test computer from modifying a SATA drive.

Test Drive Description

Manufacturer, model & size of the test drive used for this test: HWB name: Tableau Forensic SATA/IDE Bridge, Firmware Version: T35u, Tool Manufacturer : GUIDANCE Software, Capacity of Hardware: 160GB

Test Evaluation Criteria

For each computer to blocker connection tested, the number of 'writes not blocked' should be 0.

Test Case Results

The following table presents results for the test case.

Test Results for FT-HWB-SATA

Computer to Blocker Connection	Write Commands Sent	Writes Not Blocked
USB 3	36	0

Case Summary

Test drive unchanged.

Appendix: Additional Details

FT-HWB-SATA

36 writes sent, 0 write(s) not blocked, 0 write commands unsupported.

RESULTS: test drive unchanged

run start Mon Dec 10 19:28:07 2018
run finish Mon Dec 10 19:28:07 2018
elapsed time 0:0:0
Normal exit

Status Key:

Sent - the ioctl used to send this command returned without error and the ATA error bit (if applicable) was not set.
Not supported - the ioctl used to send this command return with an error status or the command completed with the ATA error bit set.
Test terminated - the test was terminated for dangerous commands because 3 or more previous commands were not blocked.

Result Key:

Unchanged - no changes to the test drive were detected.
Not Blocked - sending this command resulted in a change to the test drive.
This command was NOT blocked!
n/a - Not applicable.

Test Setup & Analysis Tool Versions

Version numbers of tools used are listed.
